ABOUT US

Unitex Group started its business journey as a garments manufacturing business entity in 1984. Since then gradually the Group has evolved into a rapidly growing multi-dimensional conglomerate.

Unitex Group considers itself as a solution provider, starting primarily from sourcing the cotton and going all the way to providing logistical services to its clients. In courses of time, the Group spread businesses in widely varied sectors covering- spinning and composite yarn manufacturing, LP gas bottling, cylinder manufacturing, trading of commodity products, petroleum, real estate & land development and steel re-rolling industries.

VISION

Develop our capacity and infrastructure to provide sustainable energy sources to the nation's growing energy needs. Provide comprehensive solutions to the nation's growing energy demands through leading innovation and sustainable practices.

MISSION

We invest our every effort in pursuit of attaining our vision by practicing corporate governance, being accountable and transparent in our work process, empowering and inspiring our associates, continuously learning and developing expertise, meeting and exceeding customer needs, demands and expectations and achieve their satisfaction, maintaining quality and consistency in our products and services, engaging with community and caring for environment.

VALUES

- Show integrity by displaying honesty and adherence to our promise.
- Take leadership and shape a better future for the community.
- Work together to deliver on our shared promises.
- Commitment to customer service excellence.
